

INTERVIEW WITH ALLY COURSE STUDENTS

Mr. ADIZOV Jakhongir FROM UZBEKISTAN

M1, the Graduate School of Economics and Business, Hokkaido University

What research are you currently doing?

I am currently interested in the possible effect of foreign direct investment on population health in developing countries.

Why did you decide to attend the Ally course?

As an economics student interested in the health outcomes, I was really concerned about my lack of knowledge in the field of public health and didn't have an idea of how to deal with it. When I learned about an Ally course from my Sensei, I was not hesitant to try my best and apply for it, as it is an opportunity I was looking for.

What were your impressions about the One Health seminar?

Every lecture that I had as a part of One Health seminar, was not only extremely informative and valuable, but also very interesting as lecturers provided real examples from their experiences. Moreover, I was very impressed by the content of the conversations that teachers and students had after the lectures as a Q&A part. I am really looking forward to meet participants in real life in the future, I have so much to learn from my Senpais!

How do you think your participation in the Ally course will help you in your future research?

After receiving so much lectures, I gained knowledge in different fields I couldn't otherwise imagine to. Also, I hope to make new friends with whom I would be able to conduct cooperative research. Moreover, I have gained a much deeper understanding of how interfaculty cooperation can be beneficial for everyone involved.

Do you have any hobbies outside of research or activities that you often do in your spare time?

I am very interested in visiting different places in Hokkaido. My favorite place is surely Hokkaido University Museum. I spend the whole day there looking at each and every item of vast variety, and I was very surprised and delighted to see items of culture from my home country. I will defiantly go there again and hopefully, more than once!

Do you have any advice for students who are thinking about attending the Ally course?

Go for it! Even though I am in the beginning of my journey I can already positively say that you will gain so much more than you expecting.

Thank you very much for an interview Adizov-san!

We wish you lots of fruitful experiences and great success in your research and Ally course !!
