

SABRIN Mirza Synthia -san

Ally Course, Obihiro University of Agriculture and Veterinary Medicine

From Bangladesh

Q: Did you learn anything or change your mind about One Health because of participating in the Ally course?

A: One Health Ally Course was a great platform, where one was able to choose and attain lectures of various fields. I was able to gain knowledge and information from expert personnels of that particular topic. It has not only changed my mind but also broadened my vision about the vast involvement of one health, in diverse directions which I never thought before. The classes were captivating and noteworthy for my education. I also enjoyed knowing about how one health approach is working in different parts of the world. Altogether, it was fruitful for me. Hopefully in the future, I can apply this knowledge in my work.

Q: Could you tell us please the most memorable part in the Ally course activities?

A: It is difficult to choose one memorable part during the course, however, the course helped me to build up on team work ability with other PhD students from different Universities. In addition to that, I was able to know about many ongoing research works at a glance through this course. Finally, I am happy to receive the precious certificate. I personally recommend to junior PhD students to join the Ally course. Thank you very much for offering such a beneficial course and considering me as a candidate.

*Mirza-san, thank you very much for your message.
We wish you continued success and prosperity in your future endeavors.*
